Computer Testing Guide

Preview of HELP page

This guide provides information when taking a computer exam at either a testing center or with live remote proctoring. Please make sure you review the HELP page before starting your computer exam. Below is some information on the HELP page, comment box and calculator.

• All candidates are taken to the following HELP Page before starting the Practice Exam tutorial. This page shows where the Calculator and Comment buttons are located. You can Bookmark any item on the test if you want to return to it later. The item status will be answered, unanswered or bookmarked. You can click to a previous or next item or put in a question number to go directly to an item. The time button will tell you the time remaining on the test.
Computer Testing Guide

Preview of HELP page

• A comment box is provided with each question for notes or when doing calculations. Not all exams require calculations. Scrap paper may be provided at test centers but is not guaranteed and must be left with the proctor to be destroyed. Scrap paper is not allowed with remote proctoring. Select the comment box to enter a comment on any exam questions. You can submit the comment to keep it or cancel the comment to discard it. After a comment is submitted, an asterisk * will appear on the Comment button to indicate there is a comment submitted for that question. Candidates may select the Comment button to submit, view, edit or remove the comments on any items up until the timer ends or the candidate exits the exam.

• The computer exam has a full screen with a calculator enabled. The calculator button toggles the calculator on and off. It is available on all questions when enabled for a test. The calculator appears directly below the answer options.

Inclement Weather, Power Failure or Emergencies

- In the event of inclement weather or unforeseen emergencies on the day of an examination, PSI/AMP will determine whether circumstances warrant the cancellation, and subsequent rescheduling, of an examination. The examination will usually not be rescheduled if the Testing Center personnel are able to open the Testing Center. If power to a testing center is temporarily interrupted during an administration, your examination will restart where you left off, and you may continue the examination.

- Candidates may contact PSI/AMP at the same number they called to schedule their appointment, or visit www.goAMP.com to determine weather related test site closures. Every attempt will be made to administer the examination as scheduled; however, should an examination be canceled at a testing center, all scheduled candidates will receive notification regarding a rescheduled examination date or reapplication procedures.

Live Remote Proctoring

- Live Remote Proctoring will be offered for a limited time and is a secure and non-invasive platform that uses professional proctors and technology to monitor examinees live while they complete the certification exam. The process is secure, easily accessible, and monitors testing activity and records all aspects of the exam session. NCC is unable to offer live remote proctoring for the Care of the Extremely Low Birth Weight Neonate (C-ELBW), Neonatal Neuro-Intensive Care (C-NNIC) or Obstetric and Neonatal Quality and Safety (C-ONQS) exams at this time.

- Required System check: Candidates who would like to choose live remote proctoring will need to run a system and webcam test on the computer they plan to take the examination on to ensure it will meet remote proctoring requirements. If requirements are met, candidates may schedule an exam with Live Remote Proctoring.

Live Remote Proctoring - Preparation

Computer Specifications

Testing computers must have a detachable web camera, microphone and broadband internet access. Technical Specifications

The technical requirements for the proctoring process are below. You will not be able to use a tablet, since tablets don’t allow you to share your screen with a proctor. Here’s a list of what you need:

- Laptop or desktop computer (Windows or Mac only)
- Webcam, Microphone and Speakers
- Stable Broadband internet Connection – Minimum 500 Kbps download and 256 Kbps upload; we recommend 5Mbps or higher upload and download

Live Remote Proctoring - Preparation

Testing the Computer
From the computer you are going to use to take the exam, you must check to see if the computer is compatible for Live Remote Proctoring testing. [click here for compatibility and webcam tests]. If the computer is compatible, you can proceed to register to take an exam.

Environment
Candidates must be able to use the computer in a private room without interruption.

Live Remote Proctoring - Scheduling

- The examination is administered by appointment only. **Examinations may be taken any day of the week, including Saturday and Sunday, 24 hours a day.**
- It is your responsibility to schedule the examination as soon as you receive your eligibility notice. This must be done within the first 30 days of your eligibility window.
- If you are unable to take the exam by Live Remote Proctoring, you will need to allow time to change to a computer test center, so it is critical you do not delay scheduling. If you are unable to schedule at a computer center, you may have to pay a change fee to extend the eligibility window. **There are no refunds**, if you submit a change request and then take the exam as scheduled or within the original testing window.
- The specific starting and ending days are provided in your eligibility notification - **you cannot finalize an appointment until you receive your eligibility notification**. Eligibility letters are sent via email once your application is approved. It is the responsibility of the individual to ensure their email is current and accessible. It is recommended that you schedule your appointment as soon as possible.
- The availability of **PSI Live Remote Proctoring** (NCC’s virtual testing vendor) **for a specific time cannot be guaranteed**. The use of Live Remote Proctoring is temporary during the COVID-19 pandemic. NCC will have 60 days to shut down this mode of testing once NCCA ends this opportunity. If you are scheduled for Live Remote any time after this is shut down, you will have to move to a computer test center mode of testing.
- Anyone unable to take the examination using LRP will have to take the Exam at a computer test center. Contact information for scheduling your appointment will be on your eligibility letter. You may also schedule using the scheduling link on your NCC account page.
- **Live Remote Proctoring** is not offered for the Care of the Extremely Low Birth Weight Neonate (C-ELBW), Neonatal Neuro-Intensive Care (C-NNIC) or Obstetric and Neonatal Quality and Safety (C-ONQS) exams at this time.

Live Remote Proctoring is temporarily approved for use during the COVID-19 Pandemic.
NCC will have 60 days to shut down this mode of testing once the pandemic ends. If you are scheduled for Live Remote any time after the 60 days, you will have to reschedule at a computer test center.
Live Remote Proctoring - Testing

What to Expect

- All candidates must report to the test portal by 15 minutes before the scheduled testing time. You can launch the exam platform within 30 minutes of your appointment time. A minimum of 15 minutes is needed for checking IDs, surveying the testing environment and going through the security measures & exam rules.

- Anyone not starting the exam within 15 minutes within the scheduled appointment time, automatically forfeits the examination appointment and the ability to test using Live Remote Proctoring. Applicants who are late or fail to take the test can file a Change Request Form with applicable fees and will need to take the exam at a computer test center. If you are unable to obtain a computer test center date within your eligibility window and already made one change request, you will no longer be eligible and will have to apply and pay an exam registration fee again. Once the candidate has connected their screen to the proctor, the proctor connects the two-way video and audio connection. Timed Examination

- After the security measures have been completed and the rules have been reviewed, the examination will start. During the exam the browser is secured with no ability to copy, paste, screen capture, access other sites, use instant messaging applications or run remote access/virtual machines.

- The use of Live Remote Proctoring is based on your computer, the bandwidth and the ability to download the program that provides you with the proctor and the exam. In some cases, this process can take time to work through and may cause a delay in your start time for the exam. The exam is not started or timed until the set up process is completed. If you feel the need to do this set up prior to the start of the exam will cause you undue stress, NCC recommends you take the exam at a computer test center.

Inclement Weather, Power Failure or Emergency

If you are unable to take your scheduled examination, due to inclement weather power failure or unforeseen emergencies, you may reschedule your exam ONCE at no charge by contacting PSI. This reschedule must occur within your 90-day testing window. If you have already used the one-time rescheduling option with PSI, then you will have to submit a “Change Request Form” (fees and restrictions apply).

Taking the Exam by Computer

What to Expect

  - To move to the next item, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination item by item. If you wish to review any item or items, click the backward arrow (<) or use the left arrow key to move backward through the examination.

  - A test item may be left unanswered and returned to later in the testing session. What Happens if You Cannot Take the Test Using Any of the Modes of Testing:
REQUEST TO CHANGE OR WITHDRAW FROM THE EXAM

Change your Testing Date, Method of Testing or Exam Category

Candidates who cannot take their currently scheduled examination, have missed their testing date or need to take a different exam - can request a change. Candidates may request to change their examination category, reschedule their testing date or even change their method of testing, provided that they meet the requirements listed below. Candidates are only allowed one change option (ex. if you reschedule your examination date, you will not be able to change your examination category). All change requests must be approved by NCC and you may be required to provide additional information. Candidates rescheduling or changing to a computer test will be assigned to the next available testing window. There will be no refund of original fees or Exam Change Request Form fees. Candidates who fail to take the examination under this change option must re-apply with full fees. You can anticipate a new eligibility letter within 2-4 weeks.

All candidates requesting a change MUST:
• Submit the change request within one calendar year from
  — the date of the exam you are changing for ICP or PEC candidates
  — the first date of your assigned testing window for computer candidates
  — the last date of your assigned testing window for virtual proctor candidates
• Submit a non-refundable fee of $125 with the Change Request Form
• Use the NCC website online Change Request Form (changes requested in any other format, will not be accepted)

To reschedule or change method of testing:
• Candidates changing a current computer test must have canceled or never made their appointment to take the exam at a PSI/AMP testing center
• Candidates changing from an ICP test must have their assigned test site code
• Candidates changing from a PEC test must have their assigned PEC class code
• Candidates changing to a PEC test must have already enrolled in the PEC course and have their assigned PEC class code

Computer exam candidates can change their scheduled testing date to another date within their window once for free. Candidates must handle this directly with PSI/AMP. Refer to page 3 for details.
To change examination category:
Eligibility must be re-established for the new exam category, and additional documentation and fees may be required. The time to consider eligibility for the new category will count toward the original assigned 90-day computer testing window. **Examinees must take the exam for which they have been determined eligible. No changes will be permitted on examination day.**
If a candidate knowingly or unknowingly takes an examination other than the one she/he was found eligible to take, the examination will not be scored. No refunds will be allowed, and all fee policies will apply if the candidate reapplies for an examination.

- Computer Candidates must submit their request at least 30 days prior to the end of their testing window
- ICP Candidates must have their assigned test site code and submit their request at least 45 days prior to testing date
- PEC Candidates CANNOT change their examination category
