Your NCC Continuing Competency Education Plan

The Education Plan is **BINDING** and must be followed to maintain your NCC certification.

### Examples and Explanations

What Does it All Mean?

The Specialty Index Report contains the ratings for each core competency area within a specialty.

The specialty index report is not based upon a grading system but uses mathematical calculations to provide a scaled 1-10 conversion based upon the type and amount of content within each core specialty’s competency content area.

Core competency areas with ratings of less than 7.5 (shown on the report in red type) indicate the need for continuing education in those competency categories to meet your maintenance needs. A specialty index rating of 7.5 or better achieved in any of the core competency areas will satisfy the maintenance needs for the specific specialty area.

The Education Plan will identify those specialty competency areas upon which continuing education should focus.

Core competency areas with ratings of less than 7.5 (shown on the report in red type) will generate a CE amount for that specific competency area. Each certified nurse will need to earn CE to meet those specific content hours.

Core competency areas ratings of 7.5 or higher have been determined to “meet the standard” and no continuing education needs to be earned for those particular specialty competency categories.

In many cases, the Education Plan will have a baseline requirement for CE in any topics within the specialty. This baseline reflects weighting that adjusts based on the individual’s specialty index ratings within the content categories of their certification specialty. See the detailed Continuing Competency Initiative brochure for complete details.

The 5 hours of CE awarded by NCC for completion of the assessment tool is deducted from the CE hour total. You can count that 5 hours awarded by NCC toward any Education Plan CE need.

Missed Keywords are generated for core competency areas with ratings of 7.5 or less. They are intended to show what specific topics had a knowledge gap on the specialty assessment tool.

Missed Keywords are an excellent way to provide some guidance for continuing education topics. They are broad in scope and you are not required to cover all keywords or topics for your NCC certification maintenance.

The Education Plan also provides links to NCC-CE modules that meet the Education Plan’s requirements. There is no requirement to use NCC CE modules, the links are provided as a convenience.
INP Core Competency Area

Fetal Assessment (Code 1)
*10 hours
• Antepartum assessment
• Electronic fetal monitoring
• Non-electronic fetal monitoring
• Acid-base assessment
• Fetal and placental development

Labor and Delivery (Code 2)
*15 hours
Labor and Delivery
• Physiology of labor
• Labor management
• Obstetrical procedures
• Pain management

Pregnancy and Obstetric Complications (Code 3)
*10 hours
Pregnancy Complications
• Maternal diseases affecting the fetus and newborn
• Lifestyle and environmental pregnancy risks

Obstetric Complications
• Labor and placental disorders
• Multiple gestation
• Preterm Labor
• Prolonged pregnancy

Postpartum (Code 4)
*5 hours
• Physiology of the postpartum woman
• Family adaptation
• Lactation
• Complications of the postpartum period
• Discharge planning and home care

Newborn (Code 5)
*5 hours
• Adaptation to extrauterine life
• Physical assessment
• Pathophysiologic conditions
• Infant nutrition
• Resuscitation and Stabilization

Professional Practice (Code 6)
*5 hours
Research
• Definitions
• Application to practice

Legal/Ethical Issues
• Definitions
• Application to practice
• Informed consent
• Legal issues affecting inpatient obstetric nursing practice

Patient Safety

Maternal/Neonatal Factors Affecting Outcomes (Code 1)  
*5 hours*  
*Factors Affecting Maternal/Neonatal Outcomes*  
- Antepartum risk factors and complications  
- Intrapartal factors  
- Medications used in labor  
- Methods of delivery  

Postpartum Assessment and Management (Code 2)  
*20 hours*  
*Maternal Assessment and Management in the Postpartum Delivery Period (Delivery through Six Weeks)*  
- Physiological changes and laboratory values  
- Nursing care and education  
- Common postpartum medications  
- Postoperative care  
- Management of common problems  
- Patient education for new mother  
- Postpartum complications  
- Family Dynamics After Childbirth  

Newborn Assessment and Management (Code 3)  
*20 hours*  
*Transition to Extrauterine Life*  
- Thermoregulation  
- Laboratory findings  
- Physiologic changes  

Physical Assessment of the Newborn  
- Gestational age assessment  
- Neurobehavioral assessment  
- Systems review  

Nursing Care and Family Education of the Newborn  

Commonly Used Medications in Neonates  

Neonatal Complications by Body System  

Professional Practice (Code 4)  
*5 hours*  
*Professional Practice*  
- Patient Safety  
- Ethical principles and theories  
- Legal Issues affecting maternal newborn nursing  
- Professional practice standards  
- Research

15 Baseline CE hours in any of your content specific specialty areas
Credit for taking this assessment (may be applied to any Plan CE need)
Total hours required: 35 hours

676 N. Michigan • Suite 3600 • Chicago, Illinois 60611
WHC Core Competency Area

Normal Physiology and Management (Code 1) *10 hours

Primary Care
- Health promotion
- Risk assessment
- Disease prevention
- National screening guidelines
- Preconceptual counseling

Obstetrics
- Maternal adaptation to pregnancy
- Prenatal care
- Routine postpartum care
- Lactation and breastfeeding

Gynecology
- Puberty
- Menstrual cycle
- Conception
- Climacteric changes
- Pregnancy prevention and fertility control
- Postmenopause changes

Pathophysiology (Code 2) *20 hours

Feedback in the specific pathophysiologic areas of gynecology, obstetrics and primary care will be provided in your Education Plan.

Gynecology

Gynecologic Disorders/Deviations
- Menstrual disorders
- STDs and vaginal infections (female/male)
- Urinary tract infections
- Pelvic pain and related disorders
- Infertility (female/male)
- Benign reproductive disorders
- Malignant reproductive disorders
- Breast disorders
- Pelvic organ relaxation and prolapse
- Polycystic ovarian syndrome
- Vulvar dystrophies and dermatoses

Male Factors Affecting Women’s Health
- Sexuality and sexual dysfunction
- Contraception
- Infertility
- STDs

Obstetrics

Complications of Pregnancy
- Preexisting conditions
- Placental abnormalities
- Pregnancy specific conditions
- Postpartum complications

Primary Care
- Recognition, basic management and/or referral of common health problems
- Disorders by physiologic system

Physical Assessment& Diagnostic Tools (Code 3) *5 hours

Health History
- Risk assessment
- Medical history
- Social history
- Family history

Physical Assessment and Examination
- General body system review
- Physiology and anatomy of reproductive organs
- Pelvic exam
- Obstetric exam
- Fetal Assessment

Diagnostic Tests and Studies
- Hematologic studies
- Serologic studies
- Kidney function studies
- Lipid profile
- Body fluids and excretion analyses
- Endoscopic procedures
- Imaging studies
- Biopsies
- Genetic screening and testing

Pharmacology (Code 4) *10 hours

Pharmacology
- Pharmacokinetics and pharmacodynamics
- Drug interactions
- Mechanisms of action

Pharmacotherapeutics (prescription and OTC)
- Drugs categories
- Drug indications/contraindications
- Side effects
- Patient education

Professional Practice (Code 5) *5 hours

Evidence Based Practice
- Research design
- Application of research findings to clinical practice
- Statistical evaluation of research studies
- Ethical considerations in research

Legal/Ethical Issues
- Informed consent
- Patient confidentiality
- Risk management
- Scope of practice
- Ethical principles

Patient Safety
- Interprofessional communication
- Medication errors
- Preventive strategies to reduce medical errors
- Documentation

*Number of CE hours required if you do not achieve a specialty index of 7.5 or more in the content area.

NCC Maintenance Application

How do I complete it?

- All certification maintenance applications must be filed online.
- Your education plan is recapped in your online maintenance application.
- You may access your online maintenance application any time after you take your assessment and keep track of your earned CE credits by saving them to the application.
- As you add CE in the required certification core competency areas, the plan will be populated with the entered hours (e.g. if you take a course in Continuing Competency for 2 hours, when you enter that activity, the 0 hours in Professional Practice will be updated to 2 hours.)
- The 5 CE hours earned for completing the Specialty Assessment is automatically entered into the application once all except the last 5 hours of required CE is earned.
- Completed NCC continuing education modules will be coded and entered into the application automatically.
- Once your Education Plan is completely populated, you will see a note at the bottom of the page to continue to the payment section.

PLEASE NOTE: For those who maintain their maintenance early, the assessment is available for three months prior to the start of the 2015, 2016 and 2017 cycles so if you are planning to take education and in the first weeks of your cycle, you can take the assessment “early” to determine if any the planned education is applicable.

REMEMBER: CE can only be earned during your current cycle, so even if take the assessment early – CE can only be earned once your new cycle starts.
## Maintenance application

**Certification to maintain » Personal information » Contact hours » Payment » Review**
