Multiple Gestation

Content Outline

1. Key Management Facts
   1.1 Incidence, morbidity and mortality risks
   1.2 Due date determination
   1.3 Chorionicity
   1.4 Aneuploidy and malformation risks
   1.5 Placentation
   1.6 Cervical length
   1.7 Growth trajectory
   1.8 Delivery recommendations

2. Clinical Recommendations
   2.1 Chorionicity determination
   2.2 Spontaneous preterm birth prediction
   2.3 Discordant growth
   2.4 Fetal death of one twin

3. Non-effective interventions
   3.1 Prophylactic cerclage
   3.2 Hospitalization and bed rest
   3.3 Prophylactic tocolysis
   3.4 Prophylactic pessary
   3.5 Progesterone treatments

4. Monochorionic twins special considerations
   4.1 Complications
   4.2 Delivery modes

Reading Material Resources

Module WB1708: Multiple Gestation is based on the resources listed below. A copy of the resources are included with the module.
